Heavy Lift Operations

COLUMBIA  HELICOPTERS

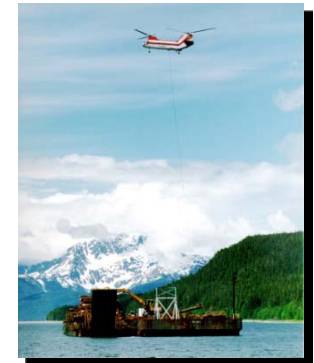

FIREFIGHTING

Each aircraft uses a bucket able to reach water sources not available to tanked helicopters.

Logistic Support

Logistic support moving U.S. and Coalition troops and cargo

LOGGING

Selective Harvest (removing only a portion of the timber)
Salvage Logging (removal of dead timber following a fire)

PETROLEUM EXPLORATION

Both aircraft assist the Petroleum Exploration rigs into rugged, remote areas industry by carrying components of drilling

FIELD MAINTENANCE

Aircraft maintenance performed globally supported from the Aurora base

CONSTRUCTION

Both aircraft offer lifting capacities to meet many construction requirements
